3 call 2023 (September 2023)

<b>Student's Matrix Number</b>	<b>Internship Project/ Special Thesis Project/ Outbound mobility in non-European countries/ Modena-Bochum DD</b>	<b>Supervisor</b>
174405	Special Project: Structural transformations and internationalization strategies of companies in the ceramic system.	TIZIANO BURSI
170001	Special Project: Internationalization strategies of ceramic tiles companies.	TIZIANO BURSI
173012		MARINA MURAT
169680	Special Project: Title: Transition to EVs in Western and Eastern countries Description: Among the trajectories of technological change, the electrification of vehicles is taking on an important role, as an alternative to fossil-based powertrains and for a greater sustainability. The rush to electric has brought new players to the sector and important changes in the supply chains of automotive companies. The thesis project is aimed at reconstructing, on the basis of a database already at disposal and used for research purposes, the changes in network for geographical areas in the development and sale of electric vehicles. The candidate will be supervised by Prof. Marchi, supported by Dr. Giulia Tagliazucchi.	GIANLUCA MARCHI
172372		YLENIA CURZI
168313		DONATELLA MALAVASI
170516	Special Project: Title: Transition to EVs in Western and Eastern countries Description: Among the trajectories of technological change, the electrification of vehicles is taking on an important role, as an alternative to fossil-based powertrains and for a greater sustainability. The rush to electric has brought new players to the sector and important changes in the supply chains of automotive companies. The thesis project is aimed at reconstructing, on the basis of a database already at disposal and used for research purposes, the changes in network for geographical areas in the development and sale of electric vehicles. The candidate will be supervised by Prof. Marchi, supported by Dr. Giulia Tagliazucchi.	GIANLUCA MARCHI
174444	Special Project: The contribution of EU quality labels to sustainability and resilience in agri-food supply chains.	ELISA MARTINELLI

	<p>The study intends to verify the dimensions and determinants of the sustainability and resilience of the players who act at various levels of the supply chain of EU quality label products, with particular reference to those who use the label "Mountain Product". We intend to identify the factors that hinder rather than facilitate the use of the MP label at the farming, grocery retailing, food servicing and policy making level.</p> <p>Methodology: semi-structured interviews with farmers, producers, grocery retailers, restaurant owners/chefs, policy makers</p>	
172904		DONATELLA MALAVASI
169123		SERGIO PABA
173877	Self-selected internship (The Netherlands)	ELISA MARTINELLI
174035		SERGIO PABA
